

Update on The Adult Beginning Reader Guide: Activities and Resources Level 0.0-3.9

The Adult Beginning Reader Guide: Activities & Resources Level 0.0-3.9 was made possible through a Florida Department of Education State Leadership Grant. The information is a guide for teachers and volunteers who work with adult beginning readers at levels 0.0-3.9. The goal of this guide is to empower the student to progress toward functional literacy in order to read and write in ways meaningful to his or her life.

The Adult Beginning Reader Guide: Activities and Resources Level 0.0-3.9 was published in 2002. The Florida Adult Basic Education Reading Frameworks were revised during the 2003-2004 grant year. This means that the standards and benchmarks referred to in *The Adult Beginning Reader Guide: Activities and Resources Level 0.0-3.9* are not correctly correlated to the revised frameworks and checklists. However, the information, resources and activities have been so well received by practitioners that the decision was made to include this document on this CD.

Please continue to use the material in the Guide but remember the standards and benchmarks are not current. Please make adaptations as necessary for required paperwork and documentation.
